

Mohammad Abdallah

Full Stack Web Developer

Considering my knowledge and the potential for quick development and completion of the assignment assigned to me, in addition to the ability to create medium-sized and large-sized websites using my original ideas. I want to prove myself at work to expand my knowledge and be able to multitask.

EDUCATION

Software Engineering (SE)

The World Islamic sciences and education university

10/2018 - 07/2022

PERSONAL PROJECTS

WISE E-practical training (03/2022 - 06/2022)

- The idea of the project is to convert the application to practical training at the university into an electronic method, as the project is considered a sub-site of the university
- The project: <https://github.com/Mohammad-abdallah2/E-practical-training>

Multi-Vendor Website (07/2022 - 09/2022)

- A complete project is a multi-vendor website that supports both Arabic and English, the ability to accommodate a large number of stores and ease of sale
- The Project: <https://github.com/Mohammad-abdallah2/Multi-Vendor-Website>

E-commerce electro (09/2022 - 01/2023)

- One of the projects that I built, as it is a site for selling electronic tools such as computers, phones, headphones, or cameras
- The project: <https://github.com/Mohammad-abdallah2/E-commerce-electro-master>
